# Challenge .

Deficit of over 30 000 IT professionals in Sweden and Norway.

The number of IT related study places has not increased notable since 2012 in Sweden.

In 2017 Norway had 4846 IT study places for 48 000 applicants.

It's estimated that between 2022 and 2025 there will be a lack of over 140 000 IT professionals in Sweden and Norway.

Almost all industries are transitioning over to be data driven at its core.

High cannibalization in the market over top talents and salary inflation.

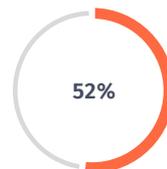

# Challenge.

Of businesses report that they don't get to fill open IT vacancies over the last 12 month

Of the businesses report that they had to turn down new customer orders as a result of lack of internal capacity.

Of businesses report that its hard to get qualified IT people to their business.

Of businesses report that the lack of IT professional is the biggest threat for their future growth

# Challenge ●

## Traditional and old Near shoring services in the market today

### **Nordic Consultancy Companies.**

Both local and remote organizations that need to be managed.

Long decision chain and bureaucracy of communications and decision making.

Prices drive up when both local and remote organizations get into the revenue stream.

### **Foreign consultancy companies.**

“Top heavy management” is often a recurring factor as well as an abundance of middle management and different departments.

It's challenging to fully understand how the Nordic market works and the business of the customer.

High turnover of employees.

Our solution.

Our professional recruiters will start their quest of finding the right candidates for your needs.

We are confident that we will find the perfect match for your organization, that's why the recruitment service has no fee.

## **Build** *and*

We integrate your developers into your own processes and ways of work. They are working in our development centers in Ukraine where we have implemented the Nordic corporate culture.

They communicate directly with you, without middle management and bureaucracy.

## **Keep** *for a*

Our mission is to keep your developers motivated, valued, educated and focused. They all have their own personal development plans.

This results in minimal employee replacement and high efficiency.

## **Monthly Fixed fee**

We don't bill by the hour! Instead we invoice a fixed fee every month based on the developers' salary and not based on the amount of hours they work.

Our price model is transparent and predictable so you always know the costs and the reimbursement your developers are getting.

### **Hand Picked**

We find and recruit the talents that you specify and require.
